Education

BMS College of Engineering

Engineering in Computer Science with Business Systems

Bengaluru, India

Oct 2023 – Aug 2027

- **CGPA:** 9.55
- **Relevant Coursework:** Data Structures and Algorithms, Operating Systems, Theory of Computation, Database Management Systems, Computer Organization, Probability Theory and Statistical Modeling, Linear Algebra and Discrete Mathematics.

Deeksha PU College

Higher Secondary Education

Bengaluru, India

2021 – 2023

- **KCET Rank:** 2917

Skills

- **Languages:** Python, C/C++, SQL, Java, JavaScript, HTML
- **Concepts:** Data Structures and Algorithms, OOP, Operating Systems, Artificial Intelligence, Machine Learning Basics, Cloud Computing

Projects

Mini-Jenkins Cluster Dashboard & Orchestrator

Python, FastAPI, PostgreSQL, Socket.io, Git

- Engineered a specialized CI/CD orchestrator utilizing an asynchronous, non-FIFO multi-queue system for dynamic build priority scoring.
- Developed automated, language-specific worker pools (Python/Node.js) that execute Git-driven pipelines based on code analysis and file impact metrics.
- Implemented a centralized real-time cluster dashboard to monitor build lifecycle progression and worker allocation.

Mac-uber: Food and Ride Sharing App

Python, JavaScript, HTML, FastAPI, PostgreSQL

- Engineered a ride-sharing platform featuring a custom multi-stop dispatch algorithm that integrates an optional food pickup with passenger transport.
- Optimized real-time location tracking and trip updates by implementing Socket.io and Geolocation APIs.
- Managed complex state transitions and relational data persistence using PostgreSQL.

House Price Prediction

Machine Learning, Python, Scikit-learn, Pandas

- Engineered an end-to-end price estimation system using Linear Regression on the Ames Housing Dataset.
- Performed extensive data cleaning and feature engineering including handling missing values and outlier detection to improve model accuracy.
- Developed a web-based interface to deliver real-time, interactive predictions for users.

Certificates

- **Nutanix Certification:** Cloud Fundamentals (March 2026)
- **Google Cloud Skills Boost:** Google Generative AI (June 2025)
- **Oracle Academy:** Database Programming with SQL (May 2025)
- **MathWorks:** MATLAB Fundamentals and Statistics Onramp (June 2024)

Leadership & Volunteering

Hospitality Committee, BMSCE Fests

2023 – Present

Senior Coordinator

- Promoted from Volunteer to Junior Coordinator, and currently serving as Senior Coordinator for major college cultural fests (Utsav).
- Managing hospitality logistics, volunteer allocations, and end-to-end coordination for external delegates.

NSS Volunteer

2023 – Present

- Organized Children's Day celebrations for economically disadvantaged children.
- Participated in polio walkathons, plantation drives, and volunteered at Adanya Chetana.
